

REGIONAL K-16 EDUCATION COLLABORATIVES GRANT PROGRAM

Powered by
FOUNDATION for CALIFORNIA COMMUNITY COLLEGES

Collaborative Name	Summary of the Proposed Project	Awarded Amount	CERF Region	Occupational Pathways	Recovery With Equity Recommendations
Central San Joaquin Valley K-16 Partnership: A Collaboration of the Fresno-Madera K-16 Collaborative and the Tulare-Kings College & Career Collaborative (The Partnership)	The Partnership was created to strengthen our region's education and socio-economic equity, leadership, support and impact on the 300,000+ K-16 students and adult learners we serve. Our aim is to eliminate intersegmental silos and unite our partners to build relationship infrastructure for future work. By braiding our approaches and resources, we are confident there will be a significant increase in filling our LMI-supported job talent pipeline and ensuring that individuals personally thrive.	\$18,130,000	Central San Joaquin Valley	Healthcare Education Business Management Engineering or Computing	<ul style="list-style-type: none"> • Improve faculty, staff, and administrator diversity • Cultivate inclusive, engaging, and equity-oriented learning environment • Retain students through inclusive support • Provide high-tech, high-touch advising • Support college preparation and early credit • Improve college affordability
Kern Regional K-16 Education Collaborative Grant	The Kern K-16 Regional Education Collaborative seeks to prepare our students for the global economy by dismantling long-standing social and economic inequities in our communities by focusing on removing barriers to student success and improving educational outcomes. By streamlining K-16 pathways in Education, Health Care and Engineering/Computing, we will meet the needs of our region and expand and diversify opportunities for students and encourage future economic growth.	\$18,130,000	Kern County	Healthcare Education Engineering or Computing	<ul style="list-style-type: none"> • Cultivate inclusive, engaging, and equity-oriented learning environment • Retain students through inclusive support • Provide high-tech, high-touch advising • Support college preparation and early credit • Improve faculty, staff, and administrator diversity
North State Together Regional K-16 Education Collaborative	North State Together (NST) is a mature K-16 collaborative serving the unique needs of northern California. NST embraces educational access, place-based solutions within a regional support network, and cross sector partnerships as the strategy to enhance personal, economic and community vitality in the north state. The K-16 Grant will expand on our existing platform and allow us to scale the model to our other committed counties in the region so that we can recover with equity, together.	\$18,130,000	North State	Education Healthcare	<ul style="list-style-type: none"> • Retain students through inclusive support • Provide high-tech, high-touch advising • Cultivate inclusive, engaging, and equity-oriented learning environment
OC Pathways to and Through College Career	OC Pathways, established in 2014 within the Orange County Department of Education, aims to use Career Education as the vehicle to promote career and college readiness in students so they have the skills necessary to enter the workforce and earn a livable wage. This project strengthens existing partnerships and alignment between all OC education partners and industry within our region so that Orange County students will lead the nation in College and Career readiness and success.	\$18,130,000	Orange County	Education Healthcare Business Management Engineering or Computing	<ul style="list-style-type: none"> • Cultivate inclusive, engaging, and equity-oriented learning environment • Retain students through inclusive support • Provide high-tech, high-touch advising • Support college preparation and early credit
Redwood Coast K-16 Education Collaborative	The Redwood Coast is a unique area of California with unique challenges, including a high Native American population (6.3%), high poverty rates (15.2%), and low rates of A-G and college completion. We propose to build a college-going culture in the region by building pathways for Education and Health Care, which are significant and growing in regional employment, by implementing inclusive supports, high-tech high-touch advising, college preparation, early credit, and broadband access.	\$18,130,000	Redwood Coast	Healthcare Education	<ul style="list-style-type: none"> • Support college preparation and early credit • Subsidize Internet access for eligible students • Retain students through inclusive support • Provide high-tech, high-touch advising
Sacramento K-16 Collaborative	The Sacramento Collaborative brings together partners throughout the region to improve student outcomes and career preparation. This will be achieved through investment in structures that support student preparation for college and transitions between educational institutions, the development of a regional data sharing system, and targeted support for historically underserved students. The Collaborative will also expand pathways in Engineering and Healthcare to meet the region's workforce needs.	\$18,130,000	Sacramento	Healthcare Engineering or Computing	<ul style="list-style-type: none"> • Cultivate inclusive, engaging, and equity-oriented learning environment • Retain students through inclusive support • Support college preparation and early credit • Improve college affordability
